STATE OF WYOMING.

Journal of the House
of the
Second Legislative Assembly
of the
State of Wyoming.

First Day.

Hall of the House of Representatives
Cheyenne, Wyoming January 10th, 1893.

Now on this 10th day of January A. D. 1893, Being the second Tuesday in January at 12 o'clock Noon, the same being the day and hour as provided by the Constitution and Law, for the meeting of the Legislature.

Members Elect of the House of Representatives of the State of Wyoming convened in the Hall of the House of Representatives in the Capitol Building in the City of Cheyenne, the Capital of the State, and proceeded to form a temporary Organization.

Hon E. U Snider Member Elect of Johnson County called the House to order; and moved that Hon J. D. Hurd, Member Elect, from Uinta County, Be the Temporary Speaker of the House.

Vote being taken upon the Motion. The Motion prevailed and Mr Hurd was declared the Temporary Speaker of the House.

Mr Hurd at once assumed his duties.

Mr Brundage Member Elect from Sheridan County moved that H. D. Merritt of Carbon County be the Temporary Chief Clerk; there being no further nominations a vote was taken and Mr Merritt declared elected.

Mr Wren of Carbon County nominated F. G. Wolf for Temporary Sargeant at Arms, a vote being taken Mr Wolf was declared elected.

Hon D A Kingsbury Member Elect from Johnson County moved that a Committee of five be appointed by the Chair on Credentials. a Vote being taken, the Motion prevailed; and the following Members Elect were appointed as a Committee on Credentials:—

Messrs Kingsbury of Johnson County, Hunter of Carbon, Harper of Crook, Ayers of Converse and Dyer of Albany.

On Motion of Mr Snider the House took a recess for Thirty minutes.

House called to order by the Temporary Speaker at the expiration of the recess and the committee of credentials submitted the following report:—

Hall of the House of Representatives
Report of Committee on Credentials

Mr Speaker:—

We your committee on credentials beg leave to report that having had under consideration the certificates of election and credentials

HOUSE JOURNAL,

also the list of names as furnished by the Governor, we find the following gentlemen are entitled to seats in this body:

Albany County

S. W. Downey — Kirk Dyer
William Taylor — James Stirling,
and Louis Wurl

Carbon and Natrona Counties

S. B. Bennett — George Wren
Harry A. Chapman — J. B. Hunter Jr.
and B. B. Brooks

Converse County

Josiah Hazen — John Scott
and Alvah W. Ayers

Crook and Weston Counties

Strather Dean — and — John S. Harper

Fremont County

James N. Farlow — John B. Okie

Johnson County

D. A. Kingsbury — and — E. U. Snider

Laramie County

T. F. Burke — C. A Guernsey
A. T. Clark — C. L. Hinsle
Eugene Colwell — and — E. J. Towslee

Sheridan County

George Brundage. — and — L. C. Tidball.

Sweetwater County

Robert Beattie — Karl Spinner
Joseph Iredale.

Uinta County

H. Allred — J. D. Hurd.
and Thomas Russell

Your committee have also had before them a certified copy of the poll list, the affidavits of the election board, the Statements of the County canvassing Board, and other evidence in the matter of of the Converse County election and are satisfied that the giving of a certificate of election to John Scott instead of Nathaniel Baker was purely a clerical error, and that the said certificate of election in equity and Justice belongs to said Baker. It is the opinion of your committee that said John Scott is not entitled to a seat as a member of this body, and we refer this question with our report to the House.

D. A Kingsbury
Chairman

Kirk Dyer

Alvah W Ayres.

J. B. Hunter, Jr.

John D. Harper

Mr Bennett of Carbon offered the following amendment to the report as submitted, and moved its adoption.

Resolutions.

Whereas, at the late election Nat Baker received 447 votes in the County of Converse for the office of Representative in the Legislature for that County, and his competetor, John Scott received 440 votes for the same office; and

Whereas, in the canvass of the votes cast in the said County the said John Scott was given through an admitted and unquestioned mistake made by the Election Board of Douglas Precinct in said County ten votes that he did not receive, which ten votes added to the votes he actually received gave him an apparent majority of three over the the said Nat Baker for the said office, and

Whereas by the interposition of technicalities, said Election Board, though offering so to do, was denied the privilege of correcting said mistake, and by reason of said mistake, a certificate of election was given to the said John Scott, and

Whereas justice requires that the said County of Converse shall be immediately represented in this body by the person receiving the unquestioned majority of the votes cast in said County for representative, therefore

Be it Resolved, that the said John Scott, was not and is not, the representative in the legislature from said county, and his name should not appear on the roll of of Members of this House and the said Nat Baker was and is, the regularly and duly elected representative in the Legislature from the said Converse County, and

Be it further Resolved, that the report of the Committee on Credentials be amended so that the name of John Scott be striken from the Roll of Members as reported by the Committee on Credentials, and the name of Nat. Baker be inserted in its stead, and that the said Nat Baker be, and is, hereby declared to be the representative in this body from the said County of Converse

The question being upon the amendment, a vote was taken, and the amendment prevailed.

The question recurring upon the adoption of the report of the Committee on Credentials as amended; a vote was taken and the report as amended was adopted.

Mr Scott presented a communication, which on Motion of Mr Downey, was read for the information of the House.

The President and Members of the Senate of the Second Legislative assembly of the State of Wyoming were announced and met in Joint Session with the House of Representatives; with the President of the Senate in the [chair] for the purpose of listening to the reading of the Message of His Excellency the Governor:

The Message was presented, and the Chief Clerk of the House read as follows:-

Gentlemen of the Senate and House of Representatives:

It becomes my duty, at this time, to address you as the representatives of a sovereign people, and as your Chief Executive, to place before you such information, and to make such recomendations as lay within my power.

I esteem it a high honor to greet you in session as the second Legislative Assembly of the State of Wyoming; to extend to you a cordial welcome, and to express my best wishes for the successful accomplishment of the arduous work upon which you are about to enter: I feel confident that with a due sense of the grave responsibilities you have assumed demanding, your best wisdom, ability and study, you will meet the wishes of your of your constituency, and that the highest interests of the State will be advanced by your earnest deliberations, and conservative legislation.

Our present Condition

No Legislative body ever convened upon Wyoming soil confronted by a situation like the present.

You have to deal with questions of vital importance; the pages of our history are open to receive the record of our transactions; permit me to express the belief, that as fearless and conscientious servants, animated with considerations of honor and Justice, you will make that record a bright and enduring one, and from this period, Wyoming will shine as one of the brightest stars in the political firmament.

Referring to the messages of my predecessors, I find it the universal custom to congratulate the citizens of the State upon their prosperous and happy condition.

I deeply regret that I do not feel justified at this time in following such a time honored precedent, it would not be true to say, that the State is advancing in prosperity or increasing in population as we would desire to see it; during the past year, few signs of prosperity have been visible, there is an unmistakenable reason for this, to which it becomes my duty to refer.

The Recent Disturbances

The lawless invasion of the State by an armed body of invaders, with its accompanying crime, occuring under the administration of my predecessor in office, has given our State an unenviable preeminence in

reputation, and greviously interferred with its material advancement.

The fact that this invasion was organized, and assisted by parties high in official and social position, that are Congressional representatives in Washington, gave out to the county and National Administration that lawlessness reigned in Wyoming; that they procured the quartering of United States troops upon our soil, and the issuance of a Presidential Proclamation of outlawry, was sufficient to deter immigration, paralyze our industries and prevent the investment of capital from abroad.

It was thought necessary to wantonly slander our State in order to excuse the crimes of the invaders, and I need not say to you, that it becomes your duty, as conservators of the honor peace and dignity of this Commonwealth to make such expression, by resolution or otherwise, as will vindicate our good name before the world.

As Governor of Wyoming, I deem it my duty, to state in this public message, what every member of this assembly knows to be true, that there exists nowhere in our union of states, a community, more intelligent, law-abiding, peaceful and patriotic, than that which composes the citizens and settler of Wyoming.

In every part of our domain, our courts have always been open for the redress of wrong, the rights of person and property are, and have been respected, and with the exception of the unfortinate disturbance referred to, caused by non-residents and hired assasins from Texas, peace and order have universally prevailed.

Immigration and Dievlopment

In this connection I am glad to express the hope, that we are now upon the threshold of a new era of material prosperity, to advance which I invite your earnest cooperation. Your attention is therefore called to the need of some legislation, to assist the more rapid development of our great natural resources, and encourage the immigration of settlers to our state. It is truly said that "men constitute a state", the great need of Wyoming at this time is the influx of settlers, and the investment of capital; we have rich and productive agricultural valleys, large grazing areas, vast forest of timber, numerous rivers and small streams and a favorable climate: We have the largest coal measures in the world, immense deposits of the world's greatest commercial products, iron, petroleum, asbestos and soda, as well as numerous mines of precious metals. Such agricultural and mineral wealth yet comparatively undeveloped, sufficient to build an Empire and support several millions of people, with prosperous and happy homes. It is only necessary to bring these facts to the attention of the over-crowded East, and foreign countries, to bring more money, brains and muscle to our state. With our mines and industries in operation,

our agricultural settlers will find an amply remunerative market for all their products.

To advertise its attractions and opportunities, some systematic and organized efforts should be made under the official sanction of the state. Whether our financial condition will allow the establishment of a bureau of immigration at this time, I am unable to say, but I believe some such measure of vital necessity to our future growth, and industrial progess.

We are now merging from the pioneer period, and in my judgment the outlay required would be repaid many fold, in the increase of population and valuation of property, thus assured.

Our United States Senator

One of the most important and serious duties developing upon this body during the present session, will be the election of a United States Senator to sucead the Honorable Francis E. Warren; as your session is limited by the Constitution to the brief period of forty days, I hope you will harmoniously discharge this duty as soon as possible, in order that sufficient time may be allowed for much needed legislation.

Out of the many aspirants for this exalted position, having the ability, attainments and purity of character, to represent this state with honor, I have no doubt you will make a fiting selection; I deem it important that such a gentlemen should properly represent the sentiments of our state on the silver question; while it does not properly come within the province of this body to legislate directly upon this National question, it is one which affects the welfare of each individual citizen of our state.

You have in your power in electing a United States Senator of such views or by expressing your views by joint resolution, to place Wyoming in its proper position as one of the states championing the free and unlimited coinage of the white metal.

The act demonetizing silver in 1873, was a crime which entailed serious financial evils upon the masses of the people in every state; the sudden contraction of our volume of currency thus accomplished, while our national industries are constantly expanding, and our population rapidly increasing, and therefore demanding an increase of money circulation, could not but produce disaster: The act was solely in the interest of the monied class, and against the interests of the ; reducing and laboring classes. Its effect has been, to vastly increase the purchasing power of money, and to depreciate the value of every form of production, property and labor.

Wyoming through this honorable body, should speak by its action and resolutions with no uncertain sound, and our representatives in Congress, should be men whose utterances and labors will be earnestly devoted, upon all occasions to the restoration of silver to its rightful position.

Joint Memorial in Behalf of New States.

The right of self-government, being universally acknowledged, as the basis of our American system, the people cannot but sympathize with those communities in our National domain, who are still under the ban of Territorial government. I deem it but an act of justice, that the Territories of Utah, New Mexico and Arizona, should be admitted into the union as sovereign states, and their people given the full right of American citizenship. They have the wealth, resources, population and intelligence to fully qualify them for the duties and responsibilities thus incurred, and I would suggest that this honorable body memorialize our nation at Congress, and urge speedy action in their behalf, that they may soon become equal in rights, privileges and dignity with the other states of the inter-mountain region.

Corrective Legislation.

During the brief time I have had to study the wants of our state, I have become convinced that many essential enactments will demand your consideration.

The repeal of burdensome and oppressive laws enacted through the influence, and in the exclusive interest of favored classes, are demanded by the people. Laws assuring settlers, working men and capitalists, full protection to personal and property rights should be passed. The recent flagrant violations of the Constitution and Laws, will sufficiently indicate the scope of such needed enactments. Some amending legislation is needed to better enforce and interpret laws already upon our Statute books. Class Legislation Must be Avoided. The National protest heard in thundering tones all over the land on the 8th. day of November last, and the voices of the people in our own state, by which they expressed their condemnation of special legislation, which aggrandizes the few and impoverishes the many, may well be heeded by us.

The Stock Commission Laws.

One of the most oppressive and unjust laws now upon our Statute books, is an act providing for a Board of Live Stock Commissioners. The despotic power assumed by the commissioners and their employees, under this act, including the seizure of live stock in transit, in or out of the State, the virtual confiscation of such property, without due process of law, by deputies, acting under the presumption, that the owner, or shipper of estrays so called, is a thief until he can prove himself innocent, and the fact that such employee can at one and the same time, enact the role of judge jury and sheriff, are powers clearly unconstitutional, unjust and abhorrent to every principal of Justice.

Other powers delegated to the commission, are excessive and arbitrary. They are not required to give bond; they may appoint any number of deputies at a [redacted]

salary of one hundred and fifty dollars per month, and pass upon their bonds. They may station such deputies ~~anywhere~~ anywhere, in or out of the state, and the expense of their employment is paid from a so-called inspection fund, appropriated by the state, and raised by general taxation, such fund amounting during the last two years, to ten thousand dollars. Other expenses, such as advertising, office rent, telegraphing etc. are paid from the same fund.

Under our constitution, no person can be deprived of his property without due process by law, and no person can be charged with and convicted of a crime without a hearing or trial before a jury; the present autocratic board of live stock commissioners, unconstitutionally assume all of these acts. The enactment is a disgrace to our Statutes, and should be promptly repealed. While the rights and property of owners of cattle are no more sacred than the rights and property of other men, still they should be vigorously protected under general statutory provisions.

Proper protection and inspection should be provided at the expense of the parties benefited. If deemed absolutely essential, a special commission might be created, to designate and divide the state into round-up districts, and to transact such other business as may be neeeessary in gathering and branding cattle, providing the acts of such commission are not unconstitutional.

Election Laws.

The need of a thorough revision of our election laws is emphasized by the glaring attempts to defraud a large number of the electors of this state of their ballots, cast at the last election. A free and untrammelled ballot, and an honest count, are sacred rights to American freeman, and must be secured at all hazards. Otherwise our free government is a failure; the laws upon this subject should be made so clear and definite, as to need interpretation, in order that the supremacy of the will of the people may be established. They should be so clear to the understanding of the common mind, and the common sense of our voters, as to leave no chance for juggling of politicians and the double interpretation of attorneys. The gaze of the nation has, for weeks past, been fixed upon Wyoming, in view of the attempted bold frauds of unscrupulous political bosses, to reverse the will of the voters, so emphatically expressed at the ballot box. Happily the infamous schemes did not avail, when the authority of our highest court to whom all honor is due, was invoked but we were plainly on the danger-line of civil disturbances and conflicts which would have been calamitous, not only to the business interests, but also to the peace of of our state. I trust you will see to it, that our election laws are so revised and corrected that no star-chamber canvassing board, either county or State acting under the direction of political ring-sters, or shrewd legal advisors, without conscience or honor, will attempt to overthrow

the will of the people, and I sincerely hope that such a lamentable occurrence will never again darken our history. While upon this subject, I would suggest, that in my opinion, balloting would be greatly simplyfied, and counting of the votes expedited, by having ballots printed each ticket on a column separate instead of mixing the names of the candidates of different political parties. so that any voter, who may desire to vote a straight can manifest such desire by marking X in a square at the top of a column; also that a canvassing board be authorized to canvass the vote for member of Congress, Governor, Judge of Supreme Court and other State Officers, and that such board be empowered to issue certificates of elections to officers regularly elected as, in the absence of any provision in our present laws conferring such authority, it unfortunately becomes the duty of an officer elected by the people, to ascertain by some other official method, the true canvass of votes cast, and when the result is so ascertained beyond question, the officer must qualify and assume the duties of his office, if he desires to prove himself worthy of the confidence reposed by the people. In the absence of such express provisions, there is no higher tribunal, than the will of the majority of electors honestly expressed at the ballot box, and to such we must all honestly submit.

State Veterinarian.

I would recommend the abolishment of the office of State Veterinarian. I find upon examination, that many of the older states, do not have such an office, and that I am convinced that Wyoming will not suffer materially by such a change. If you do not deem it advisable to abolish this office, I would suggest, that there be imposed upon him, the duty of inspecting sheep, and the adoption of proper measures for preventing the dissemination of scab and other contagious diseases among sheep, as well as other live stock, in accordance with his duties as prescribed by law. in the latter case, I would also recommend the repeal of the law authorizing County Commissioners to appoint sheep inspectors, as experience has demonstrated the present law to be inadequate for the purpose sought.

Apportionment

The last Legislature failed to pass any apportionment bill for the members of the Senate and House of Representatives, although the Constitution requires it. It becomes your duty to enact such a bill at this session, and also to provide that the Counties of Natrona and Weston have separate representation, as the Constitution declares that "each county shall constitute a senatorial and representative district", and also that "each County shall have at least, one senator and one representative."

Interest on State Funds.

In compliance with Sec 7 and 8, Art. 15 of the Constitution, I urge upon you that you supplement the above Constitutional provision with whatever legislation is necessary to make the duty of collecting interest on the State funds and payment and payment thereof into the State Treasury imperative, and declaring a failure to do so a felony, and provide adequate punishment for its commission. In our sister state of Colorado, under the provisions of such a law, over $70.000 of interest money has been added to the treasury during the past two years, where heretofore, every dollar of it was retained by the treasurer.

Game Laws.

The wanton destruction of game most assuredly demands some remedial legislation. I am informed there was shipped from the City of Rawlins, during the past year, over fifty thousand pounds of deer, elk and antelope meat, and I presume similiar shipmen[illegible] have been large from other railway points. Game consignments are undoubtdly received by transportation companies under the false pretext of consignee, that such game was killed in Utah, Colorado and other States contiguous to Wyoming. The present law does not prevent railway or express companies from receiving game or fresh hides in transit from other states hence by means of false affidavits the penalty for the illegal of destruction of game is easily avoidid.

Revenue Laws.

Our revenue laws need revision in many respect. Numerous unsettled tax cases, now in the courts in different parts of the state and between states and Counties are evidence of the defective and conflicting provisions, which such laws contains. Uniform valuation of lands which differ greatly in value is unjust and contrary to our State Constitution (see sec 28, art. 1. and sec. 11, art. 15 of the constitution). Under present statutory provisions, both mortgages and property upon which they are placed, are subject to taxation. This makes double taxation, which you will readily observe, is unjust and wrong in principle. Various states have regulated this matter in different ways, some by taxing real estate and exempting the mortgage others by allowing the owners of real estate encumbered by mortgage to deduct the amount of indebtedness so secured, from the assessment of such property.

Water Rights

The law regarding water right contests, is extremely vague and imperfect It requires notice to be given not less than ten nor more than fifteen days before the date of hearing. There is no provision for compelling the attendance of of witnesses or for the payment of their fees. No mode of procedure is prescribed hence there is no time to serve notices as required under the Code of civil procedure to take depositions of absent witnesses. This gives advantages to the rich over

Having carefully considered the State Engineers report, which is very complete and exhaustive, I would earnestly request you to examine his recommendations for alterations in the law which govern a matter so important as the decreeing of water rights, which really determine the value of land in this arid region

Probate Procedure

The probate code should be amended and revised so as to permit the settlement of small estates with as little delay and expense as possible. The present law provides that in case of estates of five hundred dollors or less the clerk of the court may act as administrator, but the manner of procedure is intricate and expensive. I would recommend that the law be so amended as to provide that in all estates of less than one thousand dollars, the clerk of the court or court commissioner, (if one is provided, in accordance with recommendation of attorney General in his report) shall act as public administrator; and that procedure be made as inexpensive as possible.

Again our old law requiring surviving partner to give bond when settling up partnership affairs, is not included in the present enactment, and leaves an opening for fraud. The last Legislature increased the time for out law on open accounts, from four to eight years, and left debts on written instruments, such as notes and contracts, to out-law after five years; this in my opinion is unreasonable, as open accounts, verbal accounts, or oral agreements are much harder to prove after a lapse of time than is a note or other written instrument. It is the universal practice in other states, to have the outlaw term, run longer upon written instruments than upon open accounts.

The present law regulating the practice of pharmacy is inoperative on account of the failure to appropriate funds, to defray the expense of organizing the board of commissioners and other expense incident to carrying out the provisions of the law.

I would recommend the appropriation of a contingent fund of one thousand dollars to pay such expense, incurred by the board of commissioners as is needed to put the law in operation.

The Worlds Fair

I learn with regret, that there is no provision in the law authorizing the appointment of a board of commissioners for the World's Columbian Exposition which requires them to report their acts or expenditures. In the absence of such report, I am unable to acquaint you with the progress made by our board of commissioners in their work, or the condition of the fund placed at their disposal.

I deem it very important; that our exhibit should be as extensive and attractive

as the funds appropriated for the purpose will admit: Wyoming needs such an opportunity to show the world something of its wonderful resource, especially as we have no bill of immigration, or any board whose duty it is to set forth the attractions and advantages of our state, as a place for the investment of capital or the home of the settler. In view of the fact, that our state has appropriated a large sum of money for a Columbian exhibit, I would suggest that the manner in which it has been applied would be a proper subject for inquiry on the part of this body, and I would advise such supplementary legislation, as an investigation would show to be necessary in the premises.

Attorney General's Report.

I find in the Attorney General's report a recommendation that the legislature provide for the purchase of two hundred and fifty volumes of "Reports of the Supreme Court 1883". These reports have already been published by the West Publishing Company of Saint Paul, Minn., and I would suggest that their proposition to sell such a number, be accepted, if it be found after investigation, that the work cannot be done in this state as cheaply and advantageously: if the bill of Messrs Britten & Gray referred to in this report, for legal services rendered in the case before the commissioners of the General Land Office in Washington, touching the boundaries of the section of land selected for the state fish hatchery, is for services engaged by proper authority I would most certainly endorse the Attorney General's recommendation, that an appropriation be made to pay the same. I desire to call your attention to the legislation advised by the Attorney General, for the improvement of the Statutes. After carefully examining the matter I am convinced that his recommendation should receive your attention.

Communication from American Bar Association

I am in receipt of a communication from a member of the Committee on uniform laws of the American Barr Association which will may be considered by your judiciary committee, and referred to you. It contemplates the idea of cooperation between the different states in the enactment of uniform laws upon various subjects upon which laws could be assimilated to facilitate the transaction of buisness and reconcile as far as possible widely differing statutes. Any thing tending to harmonize and unify our complex system of state laws, should in my judgment, be encouraged.

The Rawlins State Building

The report of the State Board of Charaties and Reform contains a recommendation regarding the completion of the State Penitentiary Building:- at Rawlins, the work of construction upon this building, was stopped at a period when it was not in a fit condition to be left exposed to the elements and this property of the State, suffers greatly as time elapses. It is imper-

atively demanded necessary that an appropriation should be made sufficient to build the third story, and to put a roof on the main administration building, also to put in windows and doors to protect the work already done. Other considerations made such an appropriation necessary at this session. Their report states that "The time is not far distant when the present accomadations at Laramie Penitentiary will be totaly inadequate to meet the needs of the state and as crowding the prisoners, in confinement, is antagonistic to health and discipline we believe that legislation at this time having for its object the furnishing of increased accomidations for penitentiary purposes is wise and timely. Such accomidations as will soon be required can be secured to the state by the early completion of the state penitentiary at Rawlins. On this property there has already been expended the sum of $31,144.41 and it was doubtless presumed by the members of the Legislature making the original appropriation, that subsequent legislatures would authorize the continuation of the work to completion.

Whatever may have been the circumstances controlling the action of past legislative bodies, the facts for the consideration of the second state legislature are unquestionable, that this state will soon require more room and better facilities for the care of its convicts, and that the most practicable method of meeting this requirment is by passing such legislation as will authorize the completion of the unfinished work at Rawlins. It is therefore respectfully recommended that a direct appropriation to commence together with an annual tax levy to complete the work be authorized by this legislature." Further recommendations are made in the report quoted which which commend themselves to my judgment. The number of prisoners having considerably increased, will require an increased appropriation over the amount appropriated two years ago. A law should be passed to allow state prisoners "Good time" also a suit of clothes and a small sum of money on their discharge from the penitentiary. These provisions are universally in vogue, and are plainly dictated by the best humantarian sentiment.

Branch Fish Hatchery.

The fish commissioner, in his annual report, recommends that the sum of $5000.00 be appropriated for the purpose of establishing a small branch fish hatchery at Sundance, in Crook County to supply the entire northern portion of the State with fish, as it is impossible to transport live fish from the main hatchery at Laramie to such distant points. I would certainly advise this appropriation if the northern part of the State suffers from being so far from the main source of supply.

The State Seal

I would recommend the repeal of that portion of section one, of chapter 62

of the Session Laws of 1890-91 which refers to the description of the Great Seal of the state for reasons embodied in the report of the Secretary of State and the insertion in the place thereof, of a discription in accordance with the design also recommended in his report, with this exception that either the word sheep be appropriately inserted, to represent the wool growing interests which is one of the most important in the State, or prehaps better, to have the words live stock inserted in lieu of the word "cattle", which will include alike cattle, sheep and horses.

Reports of State Officers.

I have devoted the brief period available since the receipt of the reports of the various State Officers, to their consideration but have found it impossible in so short a time to deal with the numerous subjects therein contained with a thoroughness and detail, which their importance demands. For this reason I have transmitted herewith, such reports as are made to me direct, which with other reports submitted to you, should be carefully scrutinized, in order that the valuable suggestions therein contained may be intelligently acted upon, in this connection I desire to call your attention to the fact, that the report of the State Mine Inspector is not in my possession.

I am informed by ex-acting Governor Barber that the carpet now in the Governor's private office does not belong to the State, and that the large book case in the Governor's public office, was purchased out of the Secretary of State's contingent fund. I am also credibly informed that a large chair upholstered in Russia leather, and other valuable furniture, originally purchased for the Governors office are missing; the first two articles mentioned, are needed in the office, and I would recommend that some provision be made to purchase them in order that they may become the property of the State, if the latter articles belong to the Governor's office, they should be returned; to avoid any further, misunderstanding in regard to the shortage of furniture, it might be well to have a committe appointed to investigate the matter.

Pardons Granted

Sec 6, Article 4, of the Constitution, makes it the duty of the Governor to communicate to the Legislature at each regular session, each case of remission of fine, reprieve, commutation or pardon granted by him during his official term, stating the name of the convict, the crime for which he or she was convicted and other circumstances therewith. Conclusion

I have as briefly as possible, called your attention to various matters of importance upon which you will be called upon to deliberate, in your capacity as law makers. While I have not been able to give these subjects the ample consideration which their importance demands, I confidently refer them to you relying upon your wise discretion and conscientious desire to faithfully serve the people of our beloved commonwealth. Your work for good or ill, will affect the welfare of our citizens for many generations. I believe you will bravely discharge the grave responsibilities you are about to assume, that your legislation will be in the interests of the whole people, for the perpetuation of their rights and liberties their happiness and prosperity, that the dark clouds which have hung along our horizon will pass away, that Wyoming will soon be honored at home and abroad as the State of "equal rights for all, and special privileges for none." To that end let us all work together as one people, forgetting affiliations and religious belief, remembering, that purity, justice and humanity are the attainments of the highest civilization and the most splendid material progress.

I can assure you that I will at all times deem it a pleasure, as it is my duty, to fully cooperate with you in the work of the session, expressing the hope that our labors will be crowned with success, the approval of the people, and the blessing of an all kind Providence

Motion withdrawn

On Motion of Mr Hunter the House at 11. A.M. adjourned until 11:30 a.m.

House called to order at 11:40 o'clock a.m.

The Speaker in the Chair.

Mr Burke moved that the Petition of Mr. Okie be read as amended.

A Vote being had the Motion prevailed and the application was read as follows:-

application of John B. Oxie contestee for subpoena.

To the Hon Committee on Elections, of the House of Representatives of the Second Legislature of the State of Wyoming. Hon. J. D. Hurd Chairman.

John B. Oxie, Member of the House of Representatives, whose seat therein is contested by W. D. Prescott, presents this his application, through your committee to the Hon House of Representatives, for a subpoena to be ordered by the said House, directed to James A. Mc Avoy County Clerk of the County of Fremont, requiring and commanding him, the said James a Mc Avoy to appear forthwith before your said Committee on Elections, and before The Honorable the House of Representatives, to tistify as witness in the said contest proceedings, and also that he be required to bring with him the returns from the several voting precincts, in said County of Fremont made and returned by the several election precinct Officers at the last general election, occuring on the 8th day of November A. D. 1892, and also to bring with him the ballots returned from said several precincts by the precinct officers that were cast at said general election.

The contestee would respectfully show as a reason, why said subpoena should issue, that he believes that there were many irregularities in the conduct of the election, and many mistakes made, in the count by the several precinct officers of the ballots actually cast at said election, and that a fair and just conclusion of the contest now pending against him can only be reached by an examination of the returns from the several precincts of said county, and an actual examination and re-count of the several ballots cast at said election.

That if such examination of the ballots and recount is made it will show conclusively that at Otto Precinct in Fremont County he received two votes that were not and should not have been counted for him, and that two votes were counted for contestant that he did not receive, and that at Rong is precinct said contestant was counted one more vote than he received, while contestee received one more vote than was counted for him, that in Chapman Precinct there were two votes counted for contestant more than he received, and Contestee was counted two votes less than he recived; that the said John P. Oxie was duly elected a Member of the House of Representatives by a much larger vote of the lawful voters of said Fremont County, than was returned by the Canvassing Board, and that the said contestant W. D. Prescott, was not elected

It appears from the evidence now before your Honorable Committee, that certain persons who voted at said election are claimed and represented to have voted unlawfully.

It is not shown by any competent evidence for whom such persons cast their ballots; that the testimony of these persons so alleged to have voted unlawfully can be had, and it be clearly made to appear by calling such persons as witnesses for whom their votes were actually cast at said election, and that they were in fact cast for the contestant and not for the contestee

STATE OF WYOMING.

Wherefore, the said Contestee respectfully prays that a subpoena dees teeum be ordered by the Honorable House of Representatives for the said witness James A. McAvoy and for such other persons, alleged to have voted unlawfully at said election to the Honorable House may seem meet and proper.

John B. Okie.

John B. Okie being first duly sworn on oath deposes and says, that he has read the above and foregoing petition to the Honorable Committee on Elections, and House of Representatives; that he knows the contents thereof, and that the same is true, except as to matters therein stated on information and belief, and as to these matters, he believes it true

STATE OF WYOMING.

Motions

36. No motion shall be debated until the same shall have seconded, and stated by the Chair.

Shall be reduced to writing if desired.

37. All motions, (except to adjourn, postpone or commit) shall be reduced to writing if desired by the Chair, or any member.

Withdrawal of Motion

38. If no one objects any motion may be withdrawn by the mover at any time, before a decision, amendment or ordering of yeas and nays, except a motion to reconsider, which shall not be withdrawn without leave of the House.

When Question is under debate.

39. When a question is under debate, no motion shall be received except:-

1. To adjourn.
2. To lay on the table
3. For the previous question
4. To postpone to a day certain.
5 To commit
6. To amend:
7. To postpone indefinitely.

And these several motions shall have precedence in the order in which they herein stand arranged.

Motions to commit.

Motion to Re-consider.

41. When a question has been once determined, either in the affirmative or negative it shall be in order for any member who voted on the prevailing side to give notice of a reconsideration thereof; but no motion for the reconsideration of any vote shall be in order after a bill, resolution, report amendment or motion upon which the vote was taken, shall have gone out of the possession of the House; nor shall any motion for reconsideration be in order unless; unless made on the same day on which the vote was taken, or within the next succeeding day of actual session of the House thereafter. And no such bill, resolution message, report, amendment or motion shall be taken out of the possession of the House, after such notice is given, until disposed of; but there shall be reconsideration of a vote to indefinitly post pone.

Cannot be Debated.

42. A, Motion to adjourn shall always be in order, that and a motion to lay on the table and for the previous question shall be decided without debate.

HOUSE JOURNAL,

The previous Question

43. Any member may move the previous Question, and if it be seconded by three other members, the previous question shall be put in this form; "Shall the main question be now put?" The object of this motion is to bring the House to a vote on the pending question without further discussion, and if the motion fails, the discussion may proceed the same as if the motion had not been made; if carried, all debate shall cease, and the Speaker shall immediately put the main question to a vote, first on proposed amendments in their order, and then on the main question, without debate or further amendment; provided that a motion to adjourn and a call of the House shall each be in order after the "previous question" has been sustained, and before the main question is put, but no other motion or call shall be in order, except to receive the report of the Sergeant at Arms, or to dispense with the proceedings under the call; - and all motions and proceedings authorized by this rule shall be decided without debate, whether on appeal or otherwise.

Committee of the Whole

Rules of the House to be Observed

HOUSE JOURNAL,

member is at the time outside of the bar of the House, and no member or other person, shall remain by the Clerks table while the ayes and noes are being called.

Call of the House

60. A call of the House shall only be ordered or a vote taken thereon upon the demand of five members, one making the motion and four seconding the same by rising. Upon a call of the House, the names of the members shall be called over by the Clerk and the absentees noted; after which the names of the absentees shall again be called over. The doors shall then be shut and those for whom no excuse or sufficient excuses are made, may by the order of those present, be taken into custody, as they appear or may be sent for and taken into custody by the Sergeant at Arms wherever to be found or by a special messenger to be appointed for that purpose.

Parliamentary Practice

61. The Rules of Parliamentary practice comprised in Jefferson's Manual shall govern the House in all cases to which they are applicable, and in which they are not inconsistent with these rules, and the orders of the House and joint rules and order of the Senate and House of Representatives.

Suspension of Rules.

62. No standing rule of the House shall be rescinded, changed or suspended except by a vote of at least two-thirds of the members present.

63. No bill for the appropriation of money, except for the expenses of the Government, shall be introduced within five (5) days of the close of the session, except by the unanimous consent of the House in which it is sought to be introduced.

64. The general appropriation bills shall embrace nothing but appropriations for the ordinary expenses, of the Legislature executive, and Judicial Departments of the State, interest on the public debt, and for public schools. All other appropriations shall be made by separate bills, each embracing but one subject.

The foregoing are all the rules which your committee would now recommend for your adoption.

Respectfully submitted

Wm Taylor,

A Bill for an appropriation to build Agricultural College at Lander.
Read First time and referred to Committee No 10.

House Joint Resolution No 1. By Mr Burdg was called up and referred to Committie No 1.

Mr Burke from the select Committie to obtain the opinion of the Attorney General on the question of Limitation of the Session presented the following communication from the Attorney General:-

State of Wyoming
Attorney General's Office Cheyenne

Cheyenne, Wyoming January 13th 1893.

Hon L. L. Tidball
Speaker of the House of Representatives,
Cheyenne, Wyoming

Sir:

Pursuant to the request of the Honorable House of Representatives, for the opinon and advice of the Attorney General, respecting the proper construction to be placed upon that provision of the Constitution, which limits the Session of the Legislature to forty days, I have the honor to present my conclusions and advice respecting that matter.

One clause of Section 6 of Article III, of the Constitution provides as follows to wit: "No Session of the Legislature after the first, which may be sixty days, shall exceed forty days."

The question presented as I understand it, is whether the clause of the Constitution above quoted, limits the session of the legislature to forty consecutive days, or whether such limitation should be construed as meaning forty legistative days, under such latter construction, excluding Sundays, legal holidays, and intermediate days, when the legislature shall not be in actual session.

The former Congressional limitation upon sessions of the territorial legislature, provided as follows:
"Sessions of Legislative assemblies of the several Territories of the United States, shall be limited to sixty days' duration".

Although the language used in the Constitution in this respect differs somewhat from the language used by Congress, in placing a limitation upon the sessions of the Territorial assemblies, there is so much similarity between the two provisions, that in view of legislative construction and decisions bearing upon the Congressional limitation, we are materially assisted in the consideration of the question, presented, by reference to such Congressional limitation upon upon the sessions of the Legislative Assembly of Wyoming, under a Territorial form of Government.

The Question suggested by the Honorable House, involving the construction of the Constitutional provision respecting so important a matter as the limitation upon the length of time during which the Legislature of the State may sit and may enact laws, is not entirely free from difficulties, and is one about which there must necessarily arise more or less doubt. The Supreme Court of Wyoming has not given expression to any view as to the proper construction to be placed upon the former Congressional limitation, nor as to the present Constitutional provision. In the case of White vs Hinton, reported in the 30th Pacific Reporter page 953, the Supreme Court of Wyoming, in considering the Congressional limitation upon the Legislative Assembly of 1877, (which was then forty days instead of sixty) used the following language: "Whether the limitation of forty days means forty consecutive, or forty days of actual legislation, excluding Sundays and other days when the legislature does not sit, is a question upon which there seems to be some conflict of judicial opinion. Some of the best considered cases hold that the limitation allows forty full days for actual legislative work." This did not amount to a decision, or an expression of opinion of the Supreme Court respecting the proper construction to be placed upon such limitation, but it indicates that the question is at least a doubtful one.

The Territory of Arizona, by a divided Court held that the Congressional limitation of sixty days must be construed to mean legislative working days. The decision and opinion by the Arizona Supreme Court was based largely upon the fact that since the organization of Arizona as a Territory, the legislative assembly of that Territory had, at every session, construed the limitation to mean working days, and not consecutive days, and with such legislative construction before the Court, together with the effect which a contrary construction by the Court would have upon much past important legislation, it was the duty of the Court to resolve all doubts upon the question in favor of the construction placed upon such Congressional limitation by the legislature.

The State of Alabama by its Constitution limited the session of its legislature in practically the same language used in the Congressional act and the Supreme Court of that State construed the Constitutional provision as limiting the number of working days only, and that Sunday, legal holidays and days when the legislature did not sit, were not to be included in the limitation fixed by the Constitution. But in that State also the Legislature had from the time of the adoption of the Constitution, so construed the Constitutional provision, and a contrary decision by the Courts would have rendered void much important legislation, enacted after the expiration of the constitutional limitation, should it be construed to mean "consecutive days".

The Supreme Court of the Territory of Utah, acting under the same Congressional

limitation which governed Wyoming, Arizona and the other Territories of the United States, has practically held that the longressional limitation meant sixty consecutive days.

One of the Judges of the Supreme Court of Arizona in the case herein before referred to, delivered a very able dissenting opinion, in which he referred to an opinion of the Honorable Attorney General of the United States rendered in 1889, in which the opinion was expressed that the words "shall be limited to sixty day's duration", in the longressional act respecting the sessions of the Territorial Legislative assemblies meant sixty consecutive days.

It will thus be observed, that there is a conflict of judicial and other authority, respecting the proper construction to be placed upon such a limitation, and that where it has been held that working days were intended instead of consecutive days by the limitation, the decisions were based largely upon the fact that there had been previous legislative construction to the same effect.

I have not been able in my investigation of this question to discover that any other courts construing similar provisions, have coincided with the views expressed in the Alabama and Arizona cases. Neither have I been able to find any views expressed to the contrary by reputable authority, except as above stated.

It is prehaps a matter of general knowledge to the members of the present legislature, that each of the former Territorial legislative assemblies of Wyoming, by their action, and by the time of their adjournment, construed the longressional limitation as meaning consecutive days, and that the First State Legislature, by its action and the time of its adjournment, placed a similiar construction upon the present constitutional limitation. We are therefore not in the situation with which the respective courts in Alabama and Arizona were confronted, and should the Supreme Court of Wyoming therefore be called upon to pass upon the question, it would not have such legislative construction to assist it in its determination, as existed in Alabama and Arizona.

I feel impelled to say that there is strong reasoning in favor of the view that the constitutional limitation means legislative instead of consecutive days, but however strongly I might lean toward that construction were I the final judge of the matter, yet in views of the entire situation, and taking into consideration the facts set forth in this opinion, and the doubt which would surround any act of the present legislature which should be enacted after the expiration of the fortieth consecutive day from the commencement of the session as well as the material difficulties into which the State and the interests of its people might be thrown should the legislature

STATE OF WYOMING.

remain in session longer than forty days, and such action should be held hereafter illegal, I feel constrained to state as my conclusion, that the constitutional provision under consideration should be construed as limiting the session of the legislature to forty consecutive days, and I therefore advise the Honorable House that absolute safety could not be insured except by adhering to such a construction

Respectfully

Charles N. Potter

Report of the Committee on Elections.

Mr Speaker:

Your Committee on Elections to whom was referred the contested election case of W. D. Prescott Contestant against John B. Okie contestee, for a seat in this house, beg leave to report that they have held a number of sittings, have examined witness and taken other testimony, and hereby submit the following finding of facts.

Election Committee.

Cheyenne, Jan. 20th, 1893.

Statement of facts as agreed upon.

First

There was no question raised before your committee as to the legality of the election held in Fremont County on the 8th day of Nov. 1892 excepts the Precincts of Lost Cabin and North Fork.

Second.

That said Precincts are each included in what is known as Election District number two in Fremont County.

Third

That a certified copy of the Commissioners Proceedings of Fremont County show that the election districts of said County were created Aug. 19th 1892.

Fourth.

That the Poll Book of said Lost Cabin Precinct discloses that 14 persons voted at said Precinct who were not residents of what is alleged as said District number two.

Fifth

That the Poll Book of said North Fork Precinct discloses that 92 persons voted at said Precinct who were not residents of what is alledged as said district number two.

Sixth.

Of the said fourteen person's voting at Lost Cabin Precinct, whose right to vote there is questioned- Thirteen reside within the County of Fremont but outside of the Shoshone Indian Reservations in said County and one resides upon said Reservation in said County.

Seventh.

Of the said 92 persons voting at North Fork Precinct whose right to vote in said Precinct is questioned- Twenty one are residents of said County residing without the limits of said Shoshone reservation and 71 reside upon said reservation within said County.

Eighth.

That the testimony of W. A Richards Surveyor General and the Certificate of the Board of County Commissioners fails to show that the Shoshone Reservation

is within said Election District number two or within any other Election Districts in said County, but it does show that the agency in said Reservation lies nearer to said Election District Number two than th any other in said County

Ninth

That of the said 71 persons voting at the said North Fork Precinct whose place of residence is given as the Shoshone Reservation.

The evidence discloses that two of said persons were full blood Indians and five were half breed or quarter breed Indians, whose fathers were white men of different Nationalities a part of whom were shown to be citizens of the United States.

But the evidence fails to disclose the citizenship of the others.

Tenth

Of the two full blood Indians Sherman Goodridge is an educated Indian who has severed his tribal relations and lives on an allotment of land. The other Louisa Boyd is married to a white man who has been a resident of the County seven years. The evidence further discloses that said Louisa Boyd draws rations for herself and children.

The evidence further discloses that seven of said half breed Indians draw rations from the Government

Eleventh

Of the two persons voting at Lost Cabin Precinct whose residence is given as Lost Cabin Precinct; There are five as to whose residence testimony is conflicting.

Twelfth

There is no evidence showing how any of these parties, whose right to vote is questioned, did vote as to Contestant or Contestee or as to any Candidate for Representative excepting in the case of Christina Baune as which Testimony is conflicting.

Thirteenth.

That the Poll Book of Lost Cabin Precinct shows that John B. Okie Contestee received 61 votes and the Contestant W. D. Prickett received 7 Votes.

Fourteenth

That the Poll Book of North Fork Precinct shows that the Contestee John B. Okie received 106 Votes and the Contestant W. D. Prickett received 73 Votes

Fifteenth

That the certificate of the State Canvassing Board shows that the contestee John B. Okie reeived 621 Votes and the contestant W. D. Prickett received 620 votes in the entire County.

Sixteenth

That the ballots of said County were offered in evidence but rejected and not recounted by the Committee for the reason that 29 out of the 31 packages came to them opened and unsealed

HOUSE JOURNAL,

Seventeenth.

Under the Notice of Contest filed on behalf of contestant W. D. Prescott and the complaint filed there under. There was claimed to be illegal and fraudulent votes to the number of 72 in North Fork Precinct and to the number of two in Lost Cabin Precinct. but at a meeting of your Committee held Jan. 17th by a Majority vote upon the application of Contestant Mr Prescott he was permitted to amend his Complaint.

By pledging 106 Illegal votes in North Fork Precinct and 20 in Lost Cabin Precinct which was done over the objection and protest of the Contestee Mr Okie and from which majority decision he took an Apeal to the Honorable House of Representatives

The Majority report was presented as follows:
In the matter of the Contest of W. D. Prescott Contestant vs. John B. Okie Contestee
Mr Speaker:

a Majority of your Committee on elections, believing from the evidence submitted before them, that there has been a large number of illegal and fraudulent votes cast in the Precincts of North Fork and Lost Cabin in Fremont County, a sufficiently large number to confer the result thereof would recommend that this House purge said elections of such fraud by throwing out 92 illegal votes from North Fork precinct and 15 illegal votes from Lost Cabin precinct, and that said votes be deducted from the votes cast for the Contestee and Contestant in proportion to the votes each candidate received in each precinct respectively

J. D. Hurd.
James N. Farlow.
D. A. Kingsbury.

The following Minority report was submitted
To the House of Representatives.
of the Second State Legislature, of the State of Wyoming.
Gentlemen;-

The Minority of your Committee on Elections beg leave to submit a further report upon the contested election case of W. D. Prescott contestant vs. John B. Okie contestee and as further finding of fact not reported by the full committee, the minority find:

That the contestant, W. D. Prescott, did not call, or attempt to call any of the voters whom he alleges to have cast illegal votes at the North Fork Precinct, in Fremont County on the 8th day of November last, or question them as to the person for whom they voted

That the contestant alleges that a large number of illegal votes were cast, and that such illegal votes were cast for John B. Okie the respondent, and not for

W. D. Pickett, the contestant but no effort is made to prove that fact, and no excuse is offered on the part of the contestant to show why such facts were made apparent. On the other hand, it is shown on the part of the respondent John B. Oxie that of all said persons could be easily found, and could have been called with witnesses without any unusual trouble or inconvenience.

Your Minority Committee further finds that there is no testimony offered in this case, sufficient to show that fraudulent votes were cast at either of said precincts. It is true that persons who were citizens of Fremont County voted at Lost Cabin and North Fork Precincts, who were not residents of said precincts, but no attempt is made to show that they were not legal votes of Fremont County. No sufficient evidence is offered by the contestant to show that any of the voters at either of said precincts are clearly illegal. The presumption of law being that the election precinct officers were honest, and made an honest effort to faithfully perform their duties, that they knew the voters who appeared and offered to vote at said several precincts, and that the voters were unchallenged by any of the by-standers, and were received by said precinct election officers without any objection thereto being made.

The presumption of law is that the election was regular, that the voters were duly qualified, and your Minority Committee finds that the evidence offered on part of the contestant is not sufficient to overcome this presumption of fairness and regularity that attaches to the acts of the election officers in so receiving said votes.

Your Minority Committee further find that under the decision of the Supreme Court of this State, in the case of Torrey vs Baldwin, that the Shoshone Reservation is a part of Fremont County, and that the citizens residing therein, otherwise qualified to vote, should not be excluded from the exercise of the elective franchise for the sole reason that they reside on, or within the Shoshone Reservation.

As conclusions from the facts found by the whole committee and the additional facts found by the Minority Committee, your Minority Committee find:

First. That it was the duty of the contestant in order to have any standing before this House to show, 1st,: That illegal votes were polled at the two precincts named, in numbers sufficient to change the result of the election.

Second. He must show the illegal votes to have been cast for the respondent John B. Oxie, and not for himself.

Your Minority Committee further find that the contestant W. D. Pickett made no attempt to show that the illegal votes alleged to have been cast at said election precincts, were polled and counted for the respondent John B. Oxie and not for himself.

Your Minority Committee further find that no excuse was offered by said contestant for his failure to make proof that said alleged illegal votes were cast for the contestee, or respondent John B. Oxie.

Your Minority Committee therefore find as a matter of law that the said contestant for these and other reasons, has no standing before this House, and has wholly failed to prove the case stated in his notice.

Your Minority Committee further find that said John. B. Okie the respondent and contestee herein, is entitled to his seat in this House, and that the said W.D. Pickett, the contestant is not entitled to said seat.

All of which is respectfully submitted

Cheyenne, Wyoming — B.B. Brooks

January 20th 1893 — T. F Burke

Mr Hurd, Moved that both reports be referred to the Committee of the Whole; after some discussion the Motion was with drawn by unanimous consent.

HOUSE JOURNAL,

And the President declared that as no person had received a majority of all the votes cast, there was no election.

Mr Snider offered the following resolution and moved its adoption

Whereas, It is self evident that the Republican and Democratic members of the present Legislature are wandering around, like sheep without a shepherd; therefore, be it,

Resolved, By this Joint assembly that the Chaplin of the Senate be requested to intercede before our "Great Father Benjiman" and "Grover"; that they may incline the hearts of their respective and wandering sheep to come into the Populist fold, so that the Populist Shepherds may protect them from the Senatorial Wolves, and lead them into green pastures, and running waters of Populist principals and may convince them that the peace and dignity of the State of Wyoming, and the happiness of all the people can only vouchsafe by all the sheep voting for a populist for United States Senator.

And be it further resolved that while the supplication is taking place that Bro. Downey of Albany be invited to stand on the right of the President, and sing in Republican tones Sankey's "Ninety and Nine."

The question being upon the adoption of the Resolution; a Vote was taken and the Resolution was not adopted.

Office of
The Pan American Bi Metalic Association
202 to 204 Boston Block.
Denver, February 1st 1893.

To the Speaker of the House
Cheyenne, Wyoming.

Dear Sir

The attitude of the incoming administration is such that it is believed that the present silver law, could a vote be reached, would pass the House notwithstanding two thirds (2/3) of its members were elected on a free coinage platform, and unless some strong demonstration is made by the western and southern states the next Congress will likely repeal that law without substituting any thing better in its place thereby leaving the producers and debtor classes of this country at the mercy of the Shylock's of Wall Streets and the Plutocracy of the World.
Therefor the friends of humanity should exert themselves in behalf of the free coinage of silver.
The American Bi-Metallic League will hold its second session in the City of Washington on the 22nd Instant, and it is very important indeed, that a strong delegation of representative free coinage advocates should represent your State in that convention.
I have requested the Governor of your State to appoint twenty delegates, and as it is a common cause it is not proper if the delegates give there time that they should pay their own expenses.
I therefor venture to suggest that your legislature make an appropriation to pay the legitimate expenses of such delegates as may attend from your State

Very Respectfully yours
A. B. Fisk President

Minority Report

To the House of Representatives.

Your committee, to which was referred House Bill No. 5. appropriating moneys for the erection of an Agricultural college Building at or near Lander, in the State of Wyoming, has had the same under consideration, and the minority of said committee beg leave to submit the following report:

To determine whether moneys can properly be appropriated by the present legislature, for the purpose indicated by the bill, requires a careful consideration of the State treasury and the various constitutional provisions bearing upon the question in addition to the general proposition, namely: whether the convenience or necessities of the people require the expenditure of so large a sum of money for the establishment of an educational institution within the limits of our State.

Considering the general proposition your minority committee believe that no appropriation of the money of the people can be rightfully made by a legislative body unless there is some necessity for such appropriation whereby the general good of the people will be advanced or their comfort and convenience enhanced.

It will be remembered that the state university, located at Laramie has established as a part thereof an agricultural college and normal school. No one will question but what the capacity of that institution is equal to all demands that may be made upon it, not only for the present, but for many years to come.

It is therefore clear that no necessity exists for the erection of the building proposed, at or near Lander, nor can it be made to appear that the convenience of any number of residents of the state will be enchanced by such building. The city of Lander is remote from the railroad, difficult of access, and has a population of perhaps six hundred people. The establishment of an agricultural college, and the erection of a college building, at that point at this time would accomodate

from a half a dozen to a dozen pupils residing in that immediate vicinity.
To appropriate the sum of money proposed, when no benefits can be derived therefrom by the people of the state outside of this one locality would seem to be a reason in itself why the bill should not pass. To pass it would be to make a reckless uncalled for appropriation of the moneys of the people of the State
Another matter of great concern to the people of the state is involved in the in the passage of this bill. Should an Agricultural College be established at Lander, an attempt is to be made to take from the agricultural college already established as a part of the state University, all appropriations by the general government for the support of an agricultural college within the limits of the State. Should the money so appropriated by the general government be directed to the new agricultural college proposed by this bill then it will become necessary to raise by special tax levied upon the property of the people of the state, about twenty five thousand dollars per annum. The constitution adopted by the people of the state compels the support and mantainance of the university without a direct violation of the constitution. It therefor follows that this institution must be supported and maintained, and if the moneys before referred to, now used for the support of that institution, are diverted to another, this additional burden must necessarily fall upon the taxpayers of the State.
When we remember that it is a matter of grave doubt whether the act of the Legislature providing for the location of an agricultural college at Lander is valid or constitutional, surely the passage of the bill now under consideration should not be permitted unless some great necessity exists which demands it.
It will be remembered that the people of our State are already groaning under the burdens of taxation, and that the present legislature was elected by the people upon the platform of economy.
If this legislature adds aditional burdens by way of taxation, it will violate its pledges to the people.
But what is the proposition presented by this bill when briefly and concisely stated? It is not to establish an educational institution either necessary or convenient for the whole people of the state, because we already have one more than sufficient for the need, necessity or convenience of the people of the State. It is not to construct, or establish an institution whereby we may have the benefits of appropriations made in aid of educational inistitutions by the general government, because we already have an institution that receive annually these moneys.
It is not for the convenience of any considerable number of students within the limits of the state, because the place where it is proposed to establish it is proposed to establish it is so difficult of access as to preclude the thought —

of convenience.

Your minority Committee would also remind the members of this house that during the last campaign which ended in democratic victory, certain violation of the constitution of our state were publicly discussed, and such claimed violations condemned by the vote of our people. Should this legislature carelessly or negligently violate the provisions of this fundamental law established by the people by the passage of unconstitutional bills, like condemnation will rightly and justly come to use.

In conclusion, your minority committee therefore say:

First. No necessary or good reason exists for the appropriation of the moneys attempted by the bill.

Second. Its passage, if valid would add onerous burdens upon the taxpayers of the state.

Third. The proposed bill is in violation of the plain mandates of the constitution and is therefore void.

For these and ~~other~~ many reasons that might be urged, your minority committee respectfully recommend that the bill do not pass, but be indefinitely postponed.

Respectfully submitted.

D. W. Downey.

The following communication from the Chaplain was read and ordered spread upon the Journal.

Cheyenne, Wyoming, Feb. 10, 1893.

To the Honorable Speaker of the House and Representatives of the State of Wyoming.

I desire to express my appreciation for the honor bestowed upon me by you, in making me your Chaplain, and with your permission I shall continue my services until the close of the Legislature, but permit me to say that I shall receive no remuneration for services performed. As a Seventh Day Adventist Minister I am opposed to Chaplains or Ministers of the Gospel, receiving pay from the public Fund, which fund should be used wholly for civil purposes. When the State uses of the Public Funds to pay for religious services of any kind it is uniting Church and State, which for the good of both should be forever kept separate. The Savior recognized these principles as stated viz. Matthew 22: 21. "Render to Caesar the things that are Caesar's and unto God the things that are God's. Caesar meaning the Civil power, God the religious power. Never should the funds of one be used to sustain the other.

Report from Select Committee.
House of Representatives.
Cheyenne, Wyo. February 13, 1893.

Mr. Speaker:

Your Committee appointed for the purpose of investigating the Board of Live Stock Commissioners beg leave to report that they have found it impracticable to examine the accounts of said Board in detail owing to limited time. But they from the examination had are convinced that the affairs of said Board have been justly and honestly administered.

The books of the Commission show, that $606.13 have been turned into the State treasury on account of unknown estrays; that the sum of $2390.79 is now in the hands of the Secretary of the Board ready to be turned into the State Treasury on account of unknown estrays, and said Secretary has in his possession $4220.77 for 1891, and $230.37 for 1892, on account of money received from what is known as "rustler" cattle, and $354.70 for 1891, and $1092.18 for 1892, received from stock replevined by said Board; that the said Secretary now has $1319.04 in hand received from estrays, the ownership is known or at present in dispute.

Of the appropriations of $10,000.00 made by the last Legislature for said Board the amount of $901.55, is at present unexpended, and the said appropriation so far as expended has been so expended for legitimate purposes.

The said Board has collected from all sources the sum of $252,132.67 and the entire sum with the exception of the above mentioned $1248.48, or $233,844.19, has been paid over to the owners of

STATE OF WYOMING.

of stock taken. This is up to November 30 1892.

The books of the Secretary show that the amount in his hands is now deposited to the credit of the said board in the Stock Growers' National Bank.

There may have been abuse and wrongs committed, but if this be the case it has been the fault of the law and not in the administration of the affairs of the Board.

The following Communications were received and read

To the President of the Senate, and the Speaker of the House:

Gentlemen:

Having been requested by a concurrent resolution of the present Legislature to examine the compilation of the unrepealed statutes of this state, prepared by Col Jay L Torrey, we beg leave to report, that we have performed that duty as carefully as possible in the limited time which we have had at our disposal.

We think that the compilation is accurate; that the bill submitted declaring it to be prima facia the laws of this state which are of a general character is the proper form of a bill, if the Legislature should deem a compilation necessary.

The passing of the laws in this shape will not have the effect to repeal any law of the state, or to re-enact any repealed law. It will present in one volume the laws of the state in force, including those enacted by the present Legislature.

We have not considered any matter but the correctness of the compilation, as its examination was the only duty devolved by the concurrent resolution requesting us to examine it.

The compilation seems to have been prepared in a thorough manner and its arrangement is in the general order pursued in the revision of 1887.

Respectfully submitted:
